

# CAPABILITY UPLIFT

Interactive group training can be effective if tailored to the audience and the business domain. For this reason, we co-design bespoke courses focussed on converting learning into actionable outcomes. We meet you where you are in your learning journey rather than impose our own beliefs or needs.

## Why is training important?

People need to obtain the skills to survive and adapt to the ever-changing digital marketplace that is upon us. Continual learning programs are proven to increase staff engagement, career growth and retention over time.

## What types of courses are available?

- Design thinking workshops
- Agile foundations training
- Becoming a Product Owner
- The Agile Business Analyst
- From Project Office to Value stream Office
- Practical Iteration Management
- Effective Workshop Facilitation
- Test Automation – Getting started

## What do I get delivered?

The choice is yours, we tailor something to suit your needs. For example, it could look like this:

- ✓ Initial ½ to 1-day complementary engagement to understand your unique challenges and co-design the course
- ✓ Certified trainer with recent deep hands on knowledge and experience
- ✓ In house delivery of the course
- ✓ A copy of all course notes and examples utilised throughout
- ✓ 1 week and 1 month check-in beyond the course to answer practical questions that you may have once you put your learnings into action
- ✓ Competitive pricing for both small and larger groups

## Why choose us?

We received an average attendee NPS rating of 93.3% in 2018 across 200 plus training participants.

We are practitioners actively engaged with clients applying the techniques we train every day. We bring this practical experience to our courses, so you have immediate application beyond the workshop.
